Node.js:换个角度看世界

天猫双十一历年成交额

Node.js® is a JavaScript runtime built on Chrome's V8

JavaScript engine.

Ryan Dahl

Father of Node.js

Development expert for high performance web services

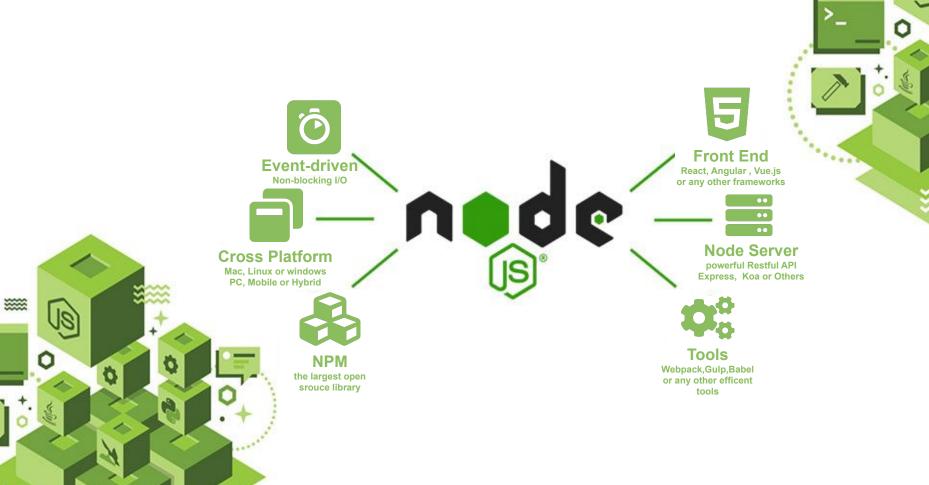

2009年的2月,他提交了项目的第一行代码,这个项目的名字最终被定名为"node"

2009年5月, Ryan Dahl 正式向外界宣布他做的这个项目 2009年底, Ryan Dahl 在柏林举行的 JSConf EU 会议上发 表关于 Node.js 的演讲, 之后 Node.js 逐渐流行于世

Core technologies about Node.js

- □ Node.js 性能很好
 - □ 选择 C++ 和 V8 而不是别的也是基于性能的考虑
 - □ 以单进程、单线程模式运行(和 Javascript 的运行方式一致)。没有多线程的资源占用和上下文切换,这意味着面对大规模的 http 请求, Node.js 凭借事件驱动搞定一切
- □ Node.js 支持 JavaScript
 - ← 在技术社区中有相当的号召力
 - □ Javascript 的匿名函数和闭包特性非常适合事件驱动、异步编程
 - □ 有 Google V8 引擎的加持, Node.js 的性能也是受益其中

About npm, Inc.

npm, Inc. is a company founded in 2014. Its executive team is:

- Isaac Z. Schlueter, Chief Open Technology Officer
- Ahmad Nassri, Chief Technology Officer
- Dawn Umlah, Chief Operating OfficerAlex Robson, Vice President of Engineering
- Adam Baldwin, Vice President of Security
- Kathy Doucette, Vice President of Finance

npm, Inc. is dedicated to the long term success of the JavaScript community, which includes the success of the open-source Node.js and npm projects.

At npm, Inc. we do three things to support this goal:

- 1. Run the open source registry as a free service.
- 2. Build tools and operate services that support the secure use of packages in a private or enterprise context.
- 3. Create innovative paid products which enhance the lives of professional JavaScript developers around the world.
